BASIC CONTROL SEQUENCES

THERE ARE THE CONTROL POSITION RECOMMENDED TO ACHIEVE THE VARIETY OF SOUNDS POSSIBLE WITH NEW ATN CIRCUITRY

SELECTOR SWITCH RECOMMENDED POSITION VOLUME - TON - TONE CONTROL KNOBS RECOMMENDED POSITIONS

HOHNER ATN TONAL CIRCUITRY

This high quality HOHNER instrument is filled with the HOHNER ATN TONAL CIRCUITRY This is a radical new development in tone control providing a wide spectrum of usable sounds WITHOUT THE USE OF ACTIVE CIRCUITRY & BATTERY

To obtain the best possible results, it may be necessary to alter amplifier settings. By experimenting with various combinations of guitar and amplifier control settings, many more sounds are possible in addition to those listed overleaf.

At last! a tone control that is worth turning and NO batteries to worry about !!
